1. Background

Leaders International (LI) plans and delivers innovation and economic development interventions with a particular focus on private-sector development, entrepreneurship, job creation, digital transformation, and access to markets. The organization manages a multi-million active portfolio of grants and service contracts to ensure the economy's access to the necessary means and resources for development and economic prosperity. Through its projects, LI leverages its expertise in research, strategy, and management to provide its beneficiaries with sustainable technical and financial assistance, and build their capacity and resilience to adapt to different economic challenges.

2. Project Background

Innovation for bringing creativity to activate Traditional Sectors in MED area - CRE@CTIVE project is designed to boost creativity and innovation by connecting traditional sectors with creative industries that encompass crafts, design, and culture. Creative innovation will help upgrade products of these sectors, improve their positioning, and enhance their competitiveness in the global market. The project will additionally create new job opportunities, drive efficient resource use, and accelerate innovation in the region.

3. Objective

As part of achieving the goal of boosting the creativity and innovation by connecting the traditional sectors with the creative industries, this activity intends to equip the Design L@B that is located in Hebron city with devices that complement the already existing devices in the lab, in order to provide the subgrantees with an integrated lab that should allow them to develop their products with the required quality.
