Project Background

Skills4Work II is a transformative 3-year project dedicated to localizing demand-driven skills development for the empowerment of both refugees and Jordanian host communities. With a primary focus on enhancing employability, the project aims to bolster the capacities of Small and Medium-sized Enterprises (SMEs) to create sustainable job opportunities. Through targeted skills development, support for SMEs, and gender-inclusive strategies, Skills4Work II seeks to address the pressing issue of unemployment in Jordan, particularly within the private sector. By actively engaging with vocational training centers, sector skills councils, and community-based organizations, the project adopts a human rights-based approach and integrates environmental considerations to ensure long-term impact and the creation of sustainable livelihoods for beneficiaries. Skills4Work II envisions a future where local solutions lead to increased economic resilience and empowerment for refugees and host communities in Jordan.

This project is implemented by Leaders International for Economic Development (LI) and funded by the Regional Development and Protection Programme for Jordan and Lebanon (RDPP III) under the Embassy of Denmark in Beirut.
